

Gardener

The museum garden comprises trees set in turf and a series of flower beds. The beds contain wild plants supplemented with a small number of donated or purchased plants. This opportunity focuses on managing the beds and will involve:

- Weeding
- Planting
- Pruning shrubs
- Deadheading
- Labelling plants
- Producing a factsheet on the wild plants and insects found in the garden
- Activities that support our local wildlife including maintaining feeders and bird boxes

What we can offer:

- The chance to meet new people and become part of a small, friendly, team
- 20% discount in the Museum Shop and Café
- A chance to support local wildlife
- An opportunity to enhance public appreciation of wild plants and their traditional uses
