

The cup should look like this

Instructions

You will need

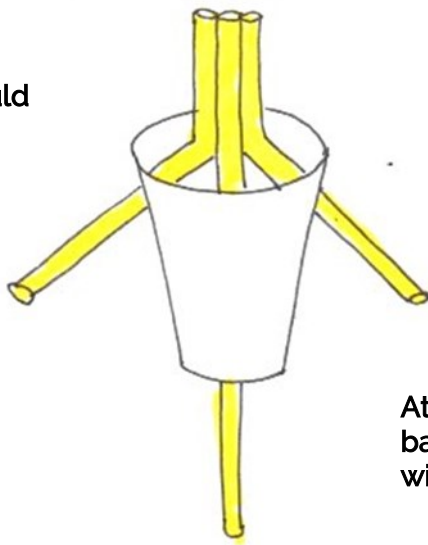

- Template sheet
- Paper Cup
- 3 x art straws
- 2 x batons
- 2 x eyes
- Glue
- Tape
- Scissors

Push the bottom straw up and down to move the arms

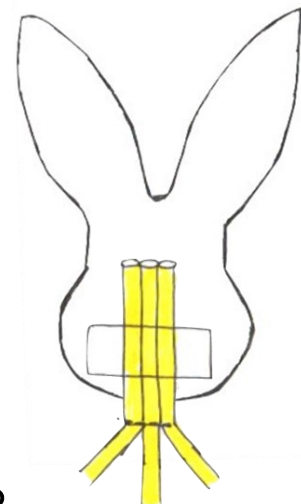

- Cut out and colour in the head, paws, feet and vest of your rabbit.
- Draw some eyes on the rabbit's face where the dotted circles are .
- Ask a adult to help you put a hole in the bottom and both sides of the cup.
- Put one straw into the cup from the top and out the hole on the left side
- Put one straw into the cup from the top and out the hole on the right side
- Put one straw into the cup from the top and out the hole in the bottom
- Bend the left and right straws so they are all pointing straight up next to the central straw
- Use some glue to stick the front and back of the vest to the cup.
- Fold the top of the vest over the rim of the cup using the dotted lines
- Glue the paws to the ends of the left and right straws and stick the feet to the cup as in the picture above.

The cup should look like this.

Ask an adult to help you put holes in the bottom of the cup and in both sides .

Attach the straws to the back of the rabbits head with glue or tape .

Marshalls help guide aircraft around when they are on the ground. Look on our Home Learning pages at armyflying.com to find out more .
